To All Archer Instruments Customers and Distributors:

The U.S. Department of Homeland Security's Cyber-Infrastructure Administration (CISA) identifies Water and Wastewater as one of the 16 Critical Manufacturing Sectors, whose continuing operations are deemed essential to the nation's economic and infrastructure security. This sector is also included on the list of essential businesses under Pennsylvania Governor Tom Wolf's list of life-sustaining businesses.

The equipment provided by Archer Instruments LLC are considered 'essential' and as such operations continue at our manufacturing site. We have not experienced any material shipment delays from our suppliers and maintain inventory of all materials necessary to continue manufacturing operations.

Archer Instruments LLC is committed to keeping our customers supplied, and measures to mitigate the spread of COVID-19 in our facility have been put in place with strict monitoring.

Please continue to keep us informed of any operational constraints or COVID-19-related health concerns as our continued safe and healthy partnership is more important than ever. Should you need to report any urgent matters, please call: 610-443-0520.

We are proud to supply equipment for the critical water and wastewater industry, upon which nations around the globe depend.

Thank you for your support during these challenging times.
